Dear Sir,

Please accept all seven medical patents as pre-approved, as a part of an "OUT OF COURT" SETTLEMENT! One is believed to be stolen by a local podiatrist. The others have been approved by doctors and/or by the person monitoring me. The enclosed partial medical deposition which was sent May 12, 2003 to the Ohio Medical Board, can no longer be found.

Then of all things, I caught medical fraud. Again instead of allowing the case to be blown wide open, St. Elizabeth's Wound Care is insisting that their facility is an exception to the rule. We took Lovina to a doctor's office within the hospital. The doctor took off not more than one and one half inch scab from Lovina's heel. Now they are calling that a \$940.00 SURGERY. In fact the removal of the scab always made Lovina worse and in pain! Of course, they will back fire with, "Are you a DOCTOR?,"

Please wave all fees, because four of my father's, Kenneth Franklin Hinten's, medical patents were stolen. Please acknowledge him as the rightful owner of the wheelchair leg extensors, wheelchair leg calf protectors, bed mobility bars, facet extension leavers and the others mentioned.

Again this is "OUT OF COURT"! In other words, this testimony has been monitored twenty four hours a day for years.

Oh, these God given medical patents also exceed any and all requirements set by the State Of Ohio Social Workers And Counselors Board. Susan Sears refused to forward me an application for licensure during "grandparenting" because of having Cerebral Palsy and my Christian stand. She did not realize the my life would end up defending Former President Ronald Reagan. Also enclosed is a testimony of events. The video will be forwarded upon request.

Please open doors for awarded doctrines degrees.

Needless to say, this will be notarized by a Columbia A.A.A. agent. Then mailed certified with a return receipt as proof. This will allow me to use and produce all of the pre-approved "OUT OF COURT" patents.

Thank you for your immediate attention.

Sincerely Yours,

*Rev. Deborah Jean Hinten M.D.*

To: Whom It May Concern

Dear Reader:

Please be advised that Ms. Deborah Hinten, who suffers from cerebral palsy, has developed three innovative things to help others:

- 1) a walker for stability while walking
- 2) a shoe modification to stabilize and support the foot while walking
- 3) a drug interaction chart

Having seen her work, I would urge they be given any other reviewer's time and attention. Thank you.

Respectfully;
